Rodný dům Antonína Dvořáka Antonín Dvořák Birth House

Historie a životní osudy skladatele je možno poznat například v rodině skladatele v Antonín Dvořákovi. Dvořák se zde narodil v roce 1852 jako nejstarší z devíti dětí. Rodiče Dvořákův, kteří v Nečkově provozovali řeznictví a kovářství. Tato budova vznikla v roce 1842 ve venkovské osadě. Dvořák žil zde do svých tří let a do svých sedmi. Chvilku byl poměrně bohatý, ale kvůli kovářství a řeznictví se rodina postupně zubožňovala a Dvořákovi se museli přestěhovat do Prahy.

The house where you are standing is the birthplace of world-renowned Czech composer Antonín Dvořák. He was born here in 1852, eldest of nine children born to his father and mother. The village had a carpenter's workshop. This building was built in the village where the house was built. In 1842 a house was built and the Dvořák family moved in. The house was quite healthy, and the building was built in the style of the time. It would have looked during Dvořák's childhood.
